

How does ISMO provide students with personalized education?

ISMO takes a personalized approach to education by removing barriers to learning, reaching students where they are, and providing innovative, high-quality online education solutions, curriculum, and programs.

How does a day at ISMO look?

Students participating in ISMO receive a high-quality, personalized education experience online. In online schooling serving grades 9–12, the classroom is in the home or on the road, wherever an internet connection is available.

Full-time students' days include a combination of:

- Online lessons, interactive activities, and virtual classroom sessions in the Online School (OLS)
- Independent activities not on the computer using MODA provided materials, including textbooks and workbooks
- Interaction with teachers and classmates online or by phone
- Guidance from their Learning Coach to ensure they are making progress during the day
- Planned student activities and parent support as needed

Students are expected to complete schoolwork each day and attend virtual classroom sessions as scheduled by their teachers.

Students

- Students will attend 2 – 4 hours of live classes Monday – Fridays.
- Some students will be required to attend support sessions to assist the student in their learning.
- Help sessions will be held 3 days per week to provide additional support if needed.
- All course work assigned (about 1 assignment per course per day) should be completed in a timely manner to meet deadlines.

Learning Coaches (in most cases parents)

As a learning coach you play an important role in your student's education. You will provide academic support, motivation, and guidance throughout the school year. Along with that, you will enter and monitor their attendance and ensure they are attending all their required live classes, ensure completion of assignments as well as communicate with teachers as needed.

Below are specific learning coach roles for grades 9-12 as well as a video that can answer more questions.

- Spend 1-3 hours a day working with your student.
- Guide and support them to become a more independent learner.
- Keep your learner motivated and on track, helping them redirect when they become distracted.
- Make sure your student attends all required live class connects.
- Work with your student to develop time management skills.
